

Sitting Pretty

IN RETIREMENT

The costs and available funds for retirement vary for everyone. With the senior population projected to grow 21.7% by 2040, getting a handle on your retirement has never been more important! Financial security in retirement is often thought of as a "three-legged stool," with all finances supported by each leg – Social Security benefits, defined benefit (DB) pension income, and supplemental individual savings.

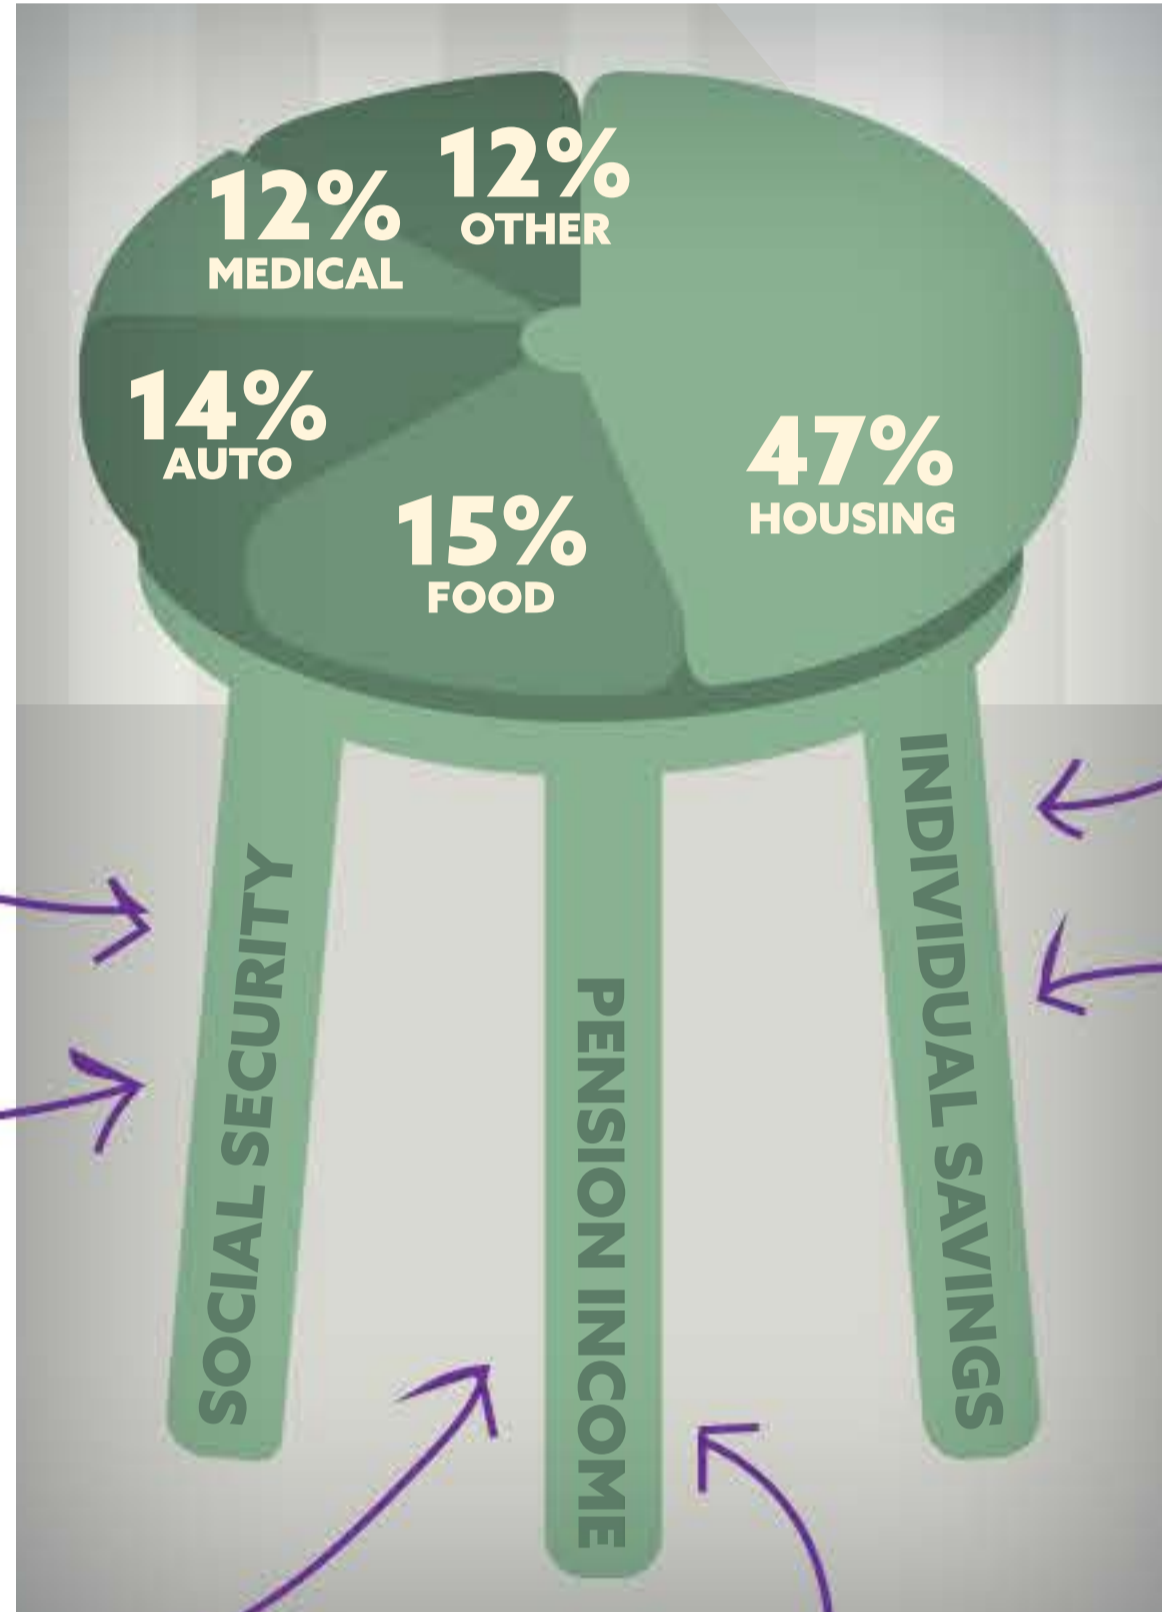

Lengths of time to consider DURING RETIREMENT
